FOCH BATTERS GERMANS ON THREE FRONTS

Allies in Heavy Fighting Slendily Briving Back The Germans-15. 000 Prisoners Taken in Four Days-Tolai Losses of Foe's Effectives Nol Less Than 50,000.

Paris, October 26-The battle has flamed up again and beavy fighting is under way from Vajenciennes to the Meuse. The Germans are resisting everywhere, but the Ailles continue & make substantial leadway in the task French war statement received here. of driving back the enemy on the Meuse iine.

Airiough the recent fightleg has been marked in no sensational developments, it is having a cumulative effect which abart from the ground gained, adds considerably to the wastage of men and material with which the Germans must reekon. in the iast four days the enemy has lost well up toward 15,000 prisoners and 200 guns. His tetai iosses of effectives can net have been iess than 50,000.

Strictly speaking, there are three large battles in progress, all of which are being conducted with equal success for the Ailies. The first is belug earried on by the British Third and Fourth armies which, pushing on toward Mons, have reached the Valenciennes-Hirson doubie-track raiiroad. The second is the attack of General Mangin, north and east of Laon, which has resulted hi a galn on a front of eight miles for a distance of two miles. He has carried his line out of the swamps around Sissone. The third battle is being fought by General Gnillaumat on a front of 17 miles, from Sissone to Chateau Poreien, where the liuning line joins the Krlemidild system of defenses. The average gain has been a mile, although at several points the advance has been greater.

SEED CORN SHOULD BE SELECTED NOW

Seed Seenred Now Will Make a Handsome Profit Over the Ordinary Rnn of Corn.

in sharp contast to lowa, which is reported to have selected enough seed corn for next spring, New York is airoady seeking an available supply for her own use. In a letter received by Mr. A. N. Gordon, who has been conneeted with the Agronomy Department of the University of Kentucky a prominent member of the faculty of New York Agricuitural College asks winether it wiii be possible to obtain any high test seed eorn from this state. It appears that the seed corn situation in New York is about as serions as it was In the Corn Belt jast year, as a frost injured the New York eorn while still in the milky stage, before it was possible to select seed.

I saw the reply which was sent to this letter, and I am sorry to say that very little encouragement was offerod in regard to the amount of fleld pleked seed in Kentucky. It seems to me that while there is still time to attend to this most necessary duty there ls nothing which offers a farmer greater opportunity for profit than the selection of as much seed corn as he has available. There is no eertainty yet that the high prices prevalent last spring will not be repeated, and corn at \$15 per bushei, a price many liiinois farmers were forced to pay, made somebody a tremendous profit. There is little probablity that any such price wlii be offered in this county, yet it is true that seed selected now will sell at a handsome premium over the ordinary run of corn. The farmer ean't icai, and he stands to make a good profit if he has several bushels of high test corn to seil in the spring

USES OF THE LEAVES

Notwithstanding the influenza and the war, this beautiful Oetober weather puts a smile on every man's face and a kind thought in his heart. And yet, like all hearty in the world there is a solemnity about it because it is the fate of beauty to be evanescent. We can already see the evanescence in the fading leaves and behold the benutiful death covering the ground. One can hear in the winds that seatter the leaves and behold the beautiful death covering the ground. One can hear in the winds that scatter the leaves prophecy of keener blasts in the near future with their icy chills and flurries of snow. We should be ready for them. We should have our coal bins filled ready to supplement the golden October with cheery grates and warm stoves. This lovely mouth will soon be a memory but the memory should help make our souls for the arctic days which are only a few weeks ahead. It all depends upon the way the spirit takes hold of the weather. We can make a May day out of December if tl at gets the upper hand and beholds in Nature a true friend.

In this connection we are reminded twhat a good Maysville lady teld us last night in regard to the leaves. She said the leaves were so plentiful in Maysville that instead of burning them the people orght to use them on their flower gardens and vegetable gardens as fertilizer. This is a splendid suggestion. Instead of hurning the haves and filling the air with smoke and thus making it unpleasant aid even dangerons for the people residing in our city, how much better it would be to eart these leaves to the garden and spade them under or use them as a muleh for flowers and shrubbery. Here is a suggestion worth more than a passing notice.

LOVE "OLD ABE" NOW?

The demoerts seem to dearly love Lincoln after he has been shipping has become one of the great dead fifty years and they quote him in their literature at every chance. "You must not swap horses in crossing a stream," is one their favorites, used to back up those holding with a bulldog grip on the public purse. There are no streams unbridged on the pikes in this state that cannot be safely used. Seems to us that about fifty. two years and more ago the democrats were not so fond of "Old Abe. They called him an "old fool," "crazy meddler," " a dreamer," and some were willing to do him any sort of injury. But, my, oh my, how they love him now and use his choicest epigrams in the endeavor to grease the way to re-election. No republican who has a memory will be inveigled away.

DO IT NOW

The city merchants all over the country have begnn advocating Christmas shopping, especially in these times when early lunying means so much to you and your country. Remember that every package carried means saving of man-power and gasoline, both essential in winning the war. With Christmas in mind, the Conneil of National Defense has emphasized the necessity for lunying merchandise now. This refers not only to ordinary shopping, but to Christmas buying. It is up to the patriotic citizens to avoid the eongestion that would result from procrastination. Now is the time to do your Christmas buying.

The Maysville merchants are just now starting a campaign along this line. We know the buying public will cooperate.

of the profits of the middleman. For instance, the price of flour in the spring of 1917 was \$16.75 / harrel wholesale in Minneapolis. This spring lt was \$9.80 a barrel. The difference between the selling price of a farmer's wheat and the selling price of the flour that was made from that wheat was \$5.68 ln May, 1917. In May, 1918,

it was only 64 cents. These reductions have been made despite the fact thath we have taken out of our markets enough food to save our Allies in Eurone from famlne. Wo have slipped 120 million bushels of wheat Instead of the 20 be our limit. De have exported 87 million pounds of beef a month in stead of only 2 million pounds. And Instead of only 50 million pounds of pork a month, we have shipped as much as 308 million pounds.

In a campaign to prevent profiteerlng and food wastage, the Food Administration in ten months huposed some 815 nenalties on wholesale and retall dealers, commission men, miliers, bakers, cold stornge companies brokers, grocers, restaurant men, and so forth. About 150 companies and Individuals have been ordered to abstaln from husiness in licensed commodities either permanently or for stated periods. The others have been regulated by fines or mlnor penaltles. In many cases, the desired result has been obtained by means of warnings. And hesides this work of the Wash-Ington headquarters, the Federal Food States have disposed of a vast number of cases on their own authority.

There is still profiteering going on and against it the Government is maklng a broad campaign, but shortage of causes of the high cost of living, and that difficulty can only be overcom? by building ships.

LONDON WOMAN PICTURES ESCAPE FROM PETROGRAD

Was Here When the Czar Abdicated-Describes Rasputin as a Terriide, Disgus(ing Figure.

London-Out of Petrograd, in terrible journey which required tweive weeks, Mrs. Lesley Wailer, daughter of Mrs. Oscar Beringer, author of the dramatization of Mrs. Hodgson Burnett's internationally popular book "Little Lord Fauntieroy," has just reached London.

"It is difficult for me to talk about Russia," she said. "It seems to have left a horrible black smudge across my hrain which I cannot wipe out. I don't mean that I suffered harm during those days of dreadful uncertainty but the last two years of my life in Petrograd were tragle. My haby was born and died during that awful time. and remembering things still hurts a great deal. Somebody asked me today to write something about Russia but I simply can't put anything down"

Before she married Mr. Walier Mlss May Holford Beringer was a popular aetress and shared with her two younger sisters several considerable triumphs on the English stage. At these three young women, is shut up somewhere in Moscow, where he has been representing Renter's agency.

At the last annual convention held in Lexington November 30-December 1, 1917, Mason connty was pledged \$50 (fifty dollors) for support of State and National Suffaago work. Like the Democratic and Republican parties there are no membership fees nor dues in the Suffrage Leagues. The only conditions of meanbership are belief in Woman Suffrage and expression of that belief. The work of the suffrage organizations is supporied by voluntary coaiributions. No one is ever asked more than once with n the year for a contribution.

Of the six hundred or more persons who have signed membership eards ia the Masoa County Wolann Suffrage Learne, not more than one hundred have ever lande a contribution to suffrage work, county, state or national. WILL tell you what will happen some night this winter in France. Some night when its cold and dark. There will be a rustling through the front line trench, where our boys stand guard. And a heavy ladened Secretary will make his way along.

In his hands will be great steaming pots: in his pocket chocolate and cigarettes.

From one man to another he will go, passing a cup full of hot coffee to hands that tremble with the cold; bringing the comfort of a bit of sweet and a smoke. Men will hail him cheerily, slapping

him on the back; and when he has gone things will be a little easier in that trench because he has passed that way.

How much will it cost to make that trip, do you suppose? Counting the pittance that the Secretary is paid, and the cost of the chocolate and the cigarettes and all?

Five dollars? Twenty-five dollars? I do not know.

But whether it is five dollars or twenty-five, I'd like to think that it is my five or twenty-five-wouldn't you? That some night when it's cold and lonesome, my money and yours might send a Secretary out along that frontline trench. Let's make up our minds that we are going to pay for a score of those trips. A NEW FOEMULA FOR DREAD PNEUMONIA

Issued By the Government Is Sald to lie Effective-Simple Remedy 1s Sald by Government Anthorltles to He Absolute Cure For Mulndy.

A rearedy for pneumonia has been seat out from the office of the surgeoa general of the United States at Washiagton, D. C., which is said by the government authorities to be an absolute cure.

The formula has been sent to all nospitais, to anilitary comps and to all government officers. Tests are declared to have proven its eilleleacy. The instructions have just been reeived by United States officials in his city and will be immediately used a all cases. The remedy is so simple tint all afflicted caa use it. Here is what the government advises:

"Saturate a ball of cotton as large is a one-inch marble with spirits of alcohol. Add three drops of chloroform to each bnii of cotton. .Place it between the pntient's teeth. Let natient inhale the fames for 15 minutes, brave men and women have struggled then rest 15 minutes, or longer if utes and repeat the operation as directed 24 times.

> "The resnit will be timt the lungs will expand to their normal condition. in 24 hours the patient is out of danger. Chaage cotton often. It ought to be changed twice in 15 minutes."

When Coi. John C. W. Brooks, comnaidant at Carnegio Institute of Technology, was asked whether he has seen the above formula, he said: "Yes, 1 received a copy from the for any improvement. dlee of the United States surgeon In my opinion, nad upon receipt of pleasant visit with relatives.

the formula 1 immediately sent it to all local hospitais. Of coarse we cannot say yet what effect it has had here, but I have been informed from Washlngton that the nuthorities there have no doubt as to the results to be ob tained from the treatment."

The above has been published in the Pittsburgh and other enstern papers, aad, of conrse, has been read with interest by everyone.
